A MESSAGE

Dear Parents,

"Somewhere, something incredible is waiting to be known." -Carl Sagan

The thirst for knowledge is not restricted to the child alone. To make children truly educated, schools and teachers must ensure that children have a society of enriching experiences. The immensity of these experiences develop a child's creativity and imagination and lead to something that is often the road to becoming a lifelong learner with a global perspective.

Letter from the Editorial Board

"Children are naturally creative. It is our job to give them the freedom. Materials & space to let their creativity blossom to its full potential." – Jean Van Hui

We are ecstatic to present before you the second edition of quarterly e-magazine. This magazine is solely crafted to exhibit the enchanting art work and arduous achievements of our budding students. It is the most appropriate platform for the learners to encourage their creativity effectively.

The pace at which technological, emotional and social changes are taking place, equipping our children merely with bookish knowledge will be inadequate. It is thus essential to inculcate right thinking in the future generation to be able to meet the challenges, that they encounter. Empowerment of our children through their development into wholesome personalities is the need of the hour.

We extend our heartfelt appreciation to all the parents for showing utter reliance in all the endeavours.

With warm regards

The Editorial Board

Army Public School Gwalior
