S. NO.	QUESTIONS	MARKS	NATURE
1	<p>Read the passage given below:</p> <p>1. Evolution has designated vultures to be the ultimate scavengers. Enormous wingspans allow them to circle in the air for hours. Their beaks, while rather horrifying, are weak by bird standards, made to scoop and eat flesh. However, unappealing they may seem, vultures serve an important role in the ecological cycle: processing the dead bodies of animals.</p> <p>2. Only 20 years ago, India had plenty of vultures-flocks so enormous they darkened the skies. But by 1999, their numbers had dropped due to a mysterious kidney ailment. By 2008, 99.9 per cent of India's vultures were gone. It was finally discovered that they had been killed by a drug called diclofenac (a pain reliever along the lines of aspirin or ibuprofen). Indians revere their cows, and when a cow showed signs of pain, they treated it with diclofenac. After the animal died, the vultures would eat the corpse. And though they boast perhaps the world's most efficient digestive system, vultures cannot digest the drug.</p> <p>3. India banned the use of diclofenac for veterinary use in 2006, but it's still widely used. The near-extinction of vultures has caused disease in the country, as rats and dogs moved in to take their place-spreading pathogens that would have otherwise been destroyed by the vultures.</p> <p>4. Vultures need large ranges to scan for food and undisturbed areas in which to nest. They also need an abundance of prey species since they rely more on chance than their own hunting skills to eat. All of these things have been reduced by human activity. Meanwhile, there is a dramatic increase in secondary poisoning. Vultures feed on carcasses laced with poison, intended to kill jackals or other predatory carnivores. So, they are poisoned by the lead in animals left behind by hunters.</p> <p>On the basis of your understanding of the passage, answer the questions given below:</p> <p>(A) Complete the sentence appropriately. By the phrase 'Vultures' flock once darkened the skies, the writer means..... .</p> <p>(B) Complete the sentence appropriately.</p>	10	Information

	<p>The gift box was filled in with a variety of exotic chocolates. It made her day!</p> <p>The word from the passage means the same as filled in the sentence given above.</p> <p>(C) The meaning of 'moved in to take place their place' as implied in the passage is that rats and dogs are taking the place of vultures for:</p> <p>(a) having the most efficient digestive system. (b) dismantling the dead carcasses. (c) being killed by the drug diclofenac. (d) spreading pathogens</p> <p>(D) How did the extinction of vultures promote the 'spread of pathogens'? (2)</p> <p>(E) Based on your reading of the passage, explain in about 40 words, the biological role played by vultures.(2)</p> <p>(F) Analyse the tone of the writer in the given sentence in about 40 words. And though they boast of having perhaps the world's most efficient digestive system, vultures cannot digest the drug.</p> <p>(G) Pick the option that uses the word 'dramatic' the same way as in this sentence: 'There is a dramatic increase in secondary poisoning.'</p> <p>(a) I have taken a course in dramatic arts this semester. (b) The mic drop at the end of his speech was a dramatic thing to do. (c) The criminal made a dramatic escape from the court premises. (d) Chandigarh has seen a dramatic rise in e-vehicles in one year.</p> <p>(H) What is the difference between vultures and other scavengers like rats and dogs, as given in the passage?</p> <p>(a) Vultures can fly while other scavengers cannot. (b) Vultures move in locks as opposed to other scavengers. (c) Vultures can digest even poison but other scavengers cannot. (d) Vultures kill harmful pathogens in carcasses but other scavengers don't.</p>		
<p>2</p>	<p>Read the extract given below and answer the questions that follow:-</p> <p>“ . He stalks in his vivid stripes, The few steps of his cage, On pads of velvet quiet, In his quiet rage.”</p> <p>Q.1 Why could the tiger walk only a few steps? Q.2 How does the tiger move in the cage?
