1)	<p style="text-align: center;"><b><u>Section-A</u></b></p> <p><b>UNSEEN PASSAGE:</b></p> <p><b>Q.1 Read the following passage carefully and answer the following questions that follow:</b></p> <p>In the quiet valley of Lortan, there stood an old observatory where scientists studied the night sky. Although the building looked deserted from the outside, inside it buzzed with activity. Maya, a curious young girl, often visited the place after school. She loved watching the gigantic telescope slowly rotate as it searched for new stars.</p> <p>One evening, the chief astronomer showed Maya a faint, glowing object that had appeared unexpectedly in the sky. It was not listed in any previous records. Scientists suspected it might be a new comet, moving silently through space. The team worked late into the night, carefully noting its brightness and direction. Maya realized how patient scientists must be, and how discoveries often required both dedication and sharp observation.</p> <p><b>(i)Choose the correct option:</b> Why did the scientists think the glowing object might be a new comet? a) It was extremely large b) It appeared suddenly and was not recorded earlier c) It made a loud sound d) Maya discovered it with her eyes</p> <p><b>(ii)Find the opposites of the given word from the above passage.</b> (a) gigantic</p> <p><b>(iii)Make sentences using the given word-</b> (a) curious</p> <p><b>(iv)Answer in short:</b> (a) What did Maya learn about scientists?</p>	<b>4x1=4</b>
